“Pierre is a true leader in mainframe software change management. I had the opportunity to work with Pierre at a customer site where he continuously came up with creative and innovative solutions to the customers’ needs. During my time at Serena when I was the Product Manager for ChangeMan ZMF I used to keep a list of the top 10 ChangeMan ZMF experts in the world, and Pierre was always listed as number one. The ideas behind the ChangeMan ZMF Enterprise Release Option (ERO) option came from Pierre. During several meetings in Belgium he convinced me of the needs and importance of a multi package release process. I have always considered Pierre to be an expert, friend, and leader in mainframe software change management.” -- **Steve Solomon*, Product Manager, Serena Software***.
