- [Helpdesk operator] |
- [Release manager] |
- [Operations control] |
- [IT Auditor] |
- [ZMF User]

Z-Bounties are used to enhance existing solutions, and/or create new solutions. Creating a Z-Bounty is a 2 steps process, as further detailed below.

Step 1: Select a topic

There are quite some items waiting completion, or waiting for some enhancements, especially in the Z-Files and the Z-Wiki. Start looking around for them, using approaches like:

- investigate the content of the Z-Factory Roadmap and/or the Z-Wiki Roadmap.
- using the search feature, e.g. to search for strings such as enhancements.

If there is anything that you really want, and you really cannot (or do not want to) wait for it, consider submitting an appropriate Z-Bounty, as further detailed below.

Another possibility is that you have requirements or requests that are even not mentioned anywhere (yet ...) within Dr.Chgman.com. It is well possible that your requirement / request has been addressed already somehow via a specific customization or approach. In that case some day the resolution might appear as some type of Z-Wiki publication or as a Z-Issue (with its related Z-Clues and Z-Files). To ensure your requirement / request gets addressed some day, or you really cannot (or do not want to) wait for it, consider submitting an appropriate Z-Bounty, as further detailed below.

Step 2: Submit a Z-Bounty

Submitting a Z-Bounty is actually a simple webform to be completed, which allows for entering details such as:

- Is it an enhancement to an existing item or is it a new requirement?
- Details about:
  - **Who you are** (including contact information).
  - **What you want** to place a Z-Bounty for (brief description, optionally including an URL).
  - **How much** you're willing to offer (pay) for it (don't worry, payment plans are part of the Z-Bounty negociation).

Copyright © 2000-2025 AbitMORE ® BV. All rights reserved

- **How long** your offer for a Z-bounty will remain valid (expiration date).

Use the form Submit a Z-Bounty to get the Z-Bounty delivered to Dr.Chgman. The Dr.Chgman team will contact you shortly after submitting the Z-Bounty, to further discuss / negociate the details of it.
