- [Helpdesk operator] |
- [Release manager] |
- [Operations control] |
- [IT Auditor]

Some of the benefits of using the items in the Z-Factory or Z-Wiki in the enterprise are: lower costs, greater operational efficiencies, increased availability and happy ChangeMan ZMF users. Dr.Chgman.com's Migration Services will ensure that you see these benefits when integrating selected Z-Factory or Z-Wiki items in your ChangeMan ZMF environment.

We help you prioritize the areas of your ChangeMan ZMF environments that will benefit the most, so that you can see the cost savings and return on investments even sooner. Our consultants will provide you with well defined migration phases so that you know exactly when and how your environment will improve. This is how it works:

- Assess your environment for migration to selected Z-Factory or Z-Wiki items.
- Run a proof of concept in your experimental ChangeMan ZMF environment.
- Deploy successfully with our help.

Please contact us to subscribe for Migration Services, or if you'd like to discuss your requirements in more detail.
