- [Operations control] |
- [IT Auditor]
- [ZMF User]

Z-Issues contain the **problem statements** for commonly known issues in ChangeMan ZMF (mostly enhancement requests, sometimes problem tickets). A possible solution for each of the issues mentioned can be found in either:

- the <u>Z-Clues</u>, which is the **documentation** about how a possible solution of the specific Z-Issue might look like.
- the <u>Z-Files</u>, which is simply the **complete set of software** related to the specific solution (compliant to what is documented in the Z-Clues also), including installation instructions, info about configuration options, etc.

For a list of Z-Issues topics, select one of the available $\underline{\text{Z-Factory categories}}$, which will list the Z-Issues for the selected category.
