Release info**Announcement date:** Mon, 02/04/2012
Applicable ChangeMan ZMF: Any ChangeMan ZMF release

This lesson teaches the use of XMLSERV, an ISPF dialog that comes with ChangeMan ZMF and that can be used for XML prototyping.

The lesson also explains some deficiencies about XMLSERV, and explores some alternatives to XMLSERV.

The lesson ends with an explanation of some hidden XMLSERV features, and a summary of some recent XMLSERV enhancements.

Agenda

- The purpose of XMLSERV.
- Using XMLSERV.
- XMLSERV deficiencies.
- Alternatives to XMLSERV.
- Hidden features.
- Recent XMLSERV enhancements
